FROM THE DESK OF THE PRINCIPAL

Show What You Know:

The 2017 Partnership for Assessment of Readiness for College and Career (PARCC) assessments will be administered at Lisbon Elementary School. The PARCC assessment consists of 7 sections, each student will complete 3 sections for reading and 4 sections for mathematics. For additional information about the PARCC assessments, please visit the HCPSS website: <http://www.hcpss.org/academics/testing/parcc/> for resources specific to PARCC. If this link does not work, please cut and paste it into your browser.

In the next 38 school days, we want our students to show the whole world what they know and what they have learned. The PARCC Assessments for Grades 3-5 is the first opportunity. End of Year MAP assessments for Grades 1-5 is the other way to demonstrate mastery.

Congratulations:

Please join me in congratulating Mrs. O'Connor and Mrs. Zimring as they were recognized at the Howard County Public School System's Gifted and Talented Educator Recognition Celebration. We are extremely excited and proud that they were among 118 educators nominated for this honor.

Thank You to PTA:

On Tuesday evening, our fabulous Lisbon PTA sponsored the very first Family Fit Night here at school. Thank you to the students, parents, grandparents, and friends who participated in this event. Everyone seemed to enjoy the Kid Friendly Boot Camp, Karate, Yoga, and Zumba classes. Thank you PTA for this awesome opportunity!

Sincerely,

Mrs. Anoff
Principal

SCHOOL NEWS

BATTLE OF THE BOOKS: This evening at Long Reach High School, 28 hard-working and studious Fifth Graders are participating in Howard County's 10th annual Battle of the Books competition. These students, working as six groups, have spent countless hours over the past 6 months reading and rereading 13 designated books. They have also met during recess time to envision their costumes, brainstorm team names, learn about how the battle works, writing questions based on the designated books read, and holding multiple mock battles where students practiced answering questions based on all 13 books. Congratulations to the following teams of students for their hard work:

<u>Lovely Leapin' Lisbon Lions</u> Cami Tracy Eden Laug Fatima Ali Hope Reynolds Maddie Gainey	<u>When Books Fly</u> Allie Cloutier Finn Reynolds Meredith Miller Nolan Wolter Reganne Leach	<u>Young, Scrappy & Hungry</u> Emme Duclos Maia Boswell Margaret Small Piper Stimler Rowan Hastings
<u>Superstar Star Wars</u> <u>Storybook</u> Alex Bilodeau Emily Dinning Harris Fleischer Jamie Shaw Ruben Payan	<u>Five Freakishly Fabulous</u> <u>Feline Friends</u> Bella DePasquale Caroline Melhuish Kirsten Rose Mackenzie Leach Manda Moya	<u>B.O.B. Squad</u> Alex Frattali Rowan Titus Sophia Lysantri

Good luck to all six of our teams: we know that you will make Lisbon proud!

SCREEN-FREE WEEK CHALLENGE: The Maryland General Assembly, Delegate Bob Flanagan, Delegate Trent Kittleman and Senator Gail Bates are inviting the students of Howard County elementary schools in District 9 to participate in the "Screen-Free Week Challenge." Younger siblings are also encouraged to participate.

They hope that interested students will accept this challenge by giving up television (and other electronic devices with screens, unless it is school-related) for seven consecutive days and engaging themselves in more productive, creative and educational ways to spend their time. **This will happen in conjunction with National Screen-Free Week 2017 from May 1st thru 7th.**

Students who successfully complete the "challenge" will receive a personalized certificate. **Participants should mail the completed form to the Office of Gail Bates by Friday, May 26th.**

District 9

SCREEN-FREE WEEK CHALLENGE

My name is _____ and I accept the challenge to give up television (and any other electronic device with a screen) for seven straight days. I am in the _____ grade and I attend _____ Elementary School. I will begin the SCREEN-FREE WEEK CHALLENGE on _____ and complete the challenge on _____.

Some of the screen-free activities I plan to do:

I understand that when I successfully complete the SCREEN-FREE WEEK CHALLENGE, I will receive my own personalized citation from the Maryland General Assembly acknowledging my accomplishments. I also understand that I will be invited with my parents to a special event sponsored by Senator Gail Bates, Delegate Bob Flanagan and Delegate Trent Kittleman.

SCIENCE FAIR:

Your child is invited to participate in this year's Science Fair on Wednesday, May 24th during the Lisbon Lions Lollapalooza from 6:30-8:00 pm. The Lollapalooza is a popular event that showcases the remarkable things our extraordinary students have done this year at Lisbon Elementary School.

If your child is interested in doing a Science Investigation, Collection, or Invention at home, please visit the Lisbon Elementary School website (les.hcpss.org) to download documents with further information and instructions. Once your child has identified a project, also download, complete, and return the ***Intent to Participate*** form by May 1st. (If you do not have access to a computer, please request a hard copy of the specific forms you need from Mrs. Drews in the office.) Students who elect to participate will have their name read on the morning announcements and their name printed and hung on a hallway wall display. Directions on where and when to bring in the projects will be shared in future Lisbon Lines.

We are excited to highlight the commitment shown and the hard work done by the LES students this year. Many thanks for all of your support at home and in the building this year.

* Students in any grade may conduct a Science Investigation to answer a question/problem. Students will use *The Scientific Method* to learn the systematic approach to solving a problem.

** Students in Kindergarten, First or Second grade may submit a collection. Students will collect and organize something of interest, answering questions related to observations made while exploring their world.

*** Students in any grade may submit an invention. Students will use the engineering design process to create an invention that will solve a problem or answer a question.
